Salt Palace Convention Center

The Convention takes place at the Salt Palace Convention Center, which is an integral part of the vibrant downtown scene of Salt Lake City. The first Salt Palace in Utah

was built in 1899 but was destroyed by a fire in 1910. An indoor arena with the same name was completed in 1969 and was home to several professional sports teams while hosting concerts and other events. The arena was demolished, and a brand-new convention center opened its doors in 1996. Adjoined to the facility are the Utah Museum of Contemporary Art and Abravanel Hall, home of the Utah Symphony.

Many of the convention center's most striking visual features were obtained through the creative use of hollow structural steel in exposed applications. The entrance towers, delicate snowflake chandeliers, and grand five-story main concourse make the Salt Palace Convention Center part architectural showpiece, part modern art sculpture, and ready to welcome NSNA.

With an elevation of 4,327 feet, Salt Lake City is surrounded by majestic snow-covered mountains. Just across from the Salt Palace, the City Creek Shopping Center offers visitors a "Passport to Shopping," with discounts and special offers from over 60 retailers and restaurants. With Salt Lake's museums, festivals, incredible shopping, and awesome live-music venues, you will experience the fun and excitement of this beautiful convention city.

Opening Ceremony and Keynote Address

Wednesday, April 3, 2019, 5:45pm - 7:30pm

The Keynote Address, celebration of the Foundation of NSNA's 50th Anniversary, recognition of scholarship winners and sponsors, and presentation of awards including Honorary Membership, make the Opening Ceremony one of the highlights of the convention. **Dr. Ernest Grant**, president of the American Nurses Association, and **Dr. G. Rumay Alexander**, president of the National League for Nursing, will bring greetings.

Dr. G. Rumay Alexander, president, National League for Nursing, and Associate Vice Chancellor and Chief Diversity Officer and full professor in the School of Nursing at The University of North Carolina at Chapel Hill, will Light the Way with the opening Keynote Address. Leveraging critical strategic leadership positions, Dr. Alexander influences nursing education,

policy, research, and practice to reflect a more equitable and inclusive society. As an educator and organizational leader, she created and implemented Agenda 21, an ongoing minority healthcare administration internship program. Her "Courageous Dialogue" model is used nationally and internationally to create open communication on difficult topics. Her sustained commitment to policy development is evident from her leadership on the Workforce Commission for Hospitals and Health Systems of the American Hospital Association, the Tri-Council of Nursing, the American Academy of Nursing and boards of prominent national organizations. Pre-Convention Faculty Workshop

How to Improve the Health of your Learning Environment: Fostering Civility Among Students and Faculty Wednesday, April 3, 2019, 8:30am - 3:30pm

REGISTRATION INCLUDES:

Full-day workshop - Lunch - 6 Contact Hours

Given the costs of incivility and disruptive behavior on patient safety, the role of nurse educators in developing professionals who can interact appropriately with their healthcare team members has perhaps never been more important. Faculty members frequently express frustration about how to effectively deal with various difficult student situations, including how to address inappropriate student behavior. Additionally, sometimes inappropriate behavior exists among faculty teams that negatively impact the overall learning environment and runs counter to the professional behaviors we expect of students. The purpose of this workshop is to equip educators with tangible strategies to cultivate civility within the learning environment, as well as to more adeptly handle difficult student situations when they do occur. Speaker: **Susan Luparell**, PhD, RN, CNE, ANEF, associate professor, Montana State University College of Nursing, is involved in both the baccalaureate and graduate nursing programs. A fellow in the Academy of Nursing Education, she is a nationally recognized speaker and author on the topic of incivility in nursing education. Her scholarship focuses on the ethical implications of incivility in healthcare, including how it affects others and how it can be managed in academic and clinical settings. Additionally, Dr. Luparell is a seasoned instructor who has received multiple commendations over the years for excellence in teaching.
