

Ag in Motion™

Western Canada's Outdoor Farm Expo

JULY 21-23, 2020

Northwest of Saskatoon on Highway 16

2020 EXHIBITOR INFORMATION

Decisions *are made in the* Field

Ag in Motion is the only farm show in Western Canada that provides an outdoor venue where progressive farmers can see and feel agricultural technology all in one place. The unique outdoor venue allows farmers to experience new products and equipment working in a live, outdoor setting.

Exhibit Options

Flexible exhibit options will suit any kind of agricultural company or organization.

- › **OUTDOOR EXHIBITS:** Start at 30' frontage and 70' depth with many ways to upsize for larger products, equipment or crop plots.
- › **INDOOR EXHIBITS:** Large industry pavilions hosting 10', 20' and 30' exhibits on grass or carpeted flooring.
- › **PREMIUM CORNERS:** Upgrade indoor or outdoor locations by moving to premium corners for increased exposure to farmers passing by.
- › **DEMO EXHIBITS:** Large exhibits concentrated on 7th Street allow companies to show farmers their equipment in action at scheduled times, or ongoing throughout the day.
- › **CROP PLOTS:** Unlike other farm shows, Ag in Motion will take technology to the field with the opportunity for seed and crop protection exhibitors to show case their products in live crop plots.
- › **LIVESTOCK CENTRAL:** Companies with a primary focus on cattle ranchers and other livestock producers are placed together to provide the best experience for these farmers. Plus, there are cattle handling demos, a livestock speaker series and more.
