

PRELIMINARY PROGRAM

Humanizing Care

through Technology and Interdisciplinary Collaboration

February 24 – 25, 2021 | VIRTUAL

Keynote Speakers

- Paule V. Joseph, PhD, MS, FNP-BC, RN, CTN-B
Lasker Clinical Research Scholar/Investigator, NIH/NINR
- Jacquelyn Y. Taylor, PhD, PNP-BC, FAHA, FAAN
- Helen F. Pettit
*Professor of Nursing, Director, Center for Research on People of Color,
Columbia University, School of Nursing*

The SNRS Board of Directors and the program committee are pleased to present the program for the SNRS 35th Annual Conference, Humanizing Care through Technology and Interdisciplinary Collaboration. We look forward to seeing you virtually!

Schedule at a Glance

Wednesday, February 24, 2021

All times listed are EST

12:00-12:45 pm

Welcome & Opening Keynote

Jacquelyn Y. Taylor, PhD, PNP-BC, FAHA, FAAN

Helen F. Pettit Professor of Nursing, Director, Center for Research on People of Color, University of Columbia, School of Nursing

12:50-1:50 pm

CONCURRENT SESSION A

A1: Symposium—Community Health Nursing Research: Enhancing Science Inclusivity for Diverse Populations

A2: Podium—Research in Vulnerable and At-Risk Populations

A3: General Session—Best Practices in Recruitment and Retention for Nursing Research

A4: *All of Us* Research Program

12:50-2:30 pm

Top Student Poster Session

2:00-2:30 pm

Poster Session

2:00-2:30 pm

Exhibit Hall Open

2:30-3:30 pm

RIG Networking Sessions

3:30-4:30

CONCURRENT SESSION B

B1: Symposium—Addressing Health Care Needs of Diverse Populations

B2: Podium—Promoting Self-Care and Care Management

B3: General Session—Methodological Challenges and Solutions

B4: Works in Progress

4:30-4:45 pm

Break

4:45-6:30 pm

Business Meeting/Awards Networking Session

Thursday, February 25, 2021

All times listed are EST

12:00 -12:45 pm

Keynote

Paule V. Joseph, PhD, MS, FNP-BC, RN, CTN-B

Lasker Clinical Research Scholar/Investigator, NIH/NINR

12:50-1:50 pm

CONCURRENT SESSION C

C1: Symposium—Strategies to Include the Underrepresented Sickle Cell Disease Population in Research

C2: Podium—Research to Improve Workforce and Student Experiences

C3: General Session

1:50-2:20 pm

Poster Session

1:50-2:20 pm

Exhibit Hall Open

1:50-2:50 pm

RIG Networking Meetings

3:00-4:00 pm

CONCURRENT SESSION D

D1: Symposium

D2: Podium

D3: General Session—Moving Nursing Beyond $p < .05$

4:00-4:15 pm

Break

4:15-6:15 pm

CONCURRENT SESSION E

CAREER SCHOLARSHIP SESSIONS

E1: Clinical Scientists

E2: Senior Scientists

E3: Mid-Career Scientists

E4: Junior Scientists

6:15-6:30 pm

Closing Session

**Schedule is subject to change.*

Keynote Presenters

Wednesday, February 24

Jacquelyn Y. Taylor, PhD, PNP-BC, FAHA, FAAN

Dr. Taylor's research focuses on the interaction of -omics and social factors that contribute to health disparities for common chronic conditions among underrepresented minority populations in the United States and vulnerable populations abroad. Her R01 "Intergenerational Impact of

Genetic and Psychological Factors on Blood Pressure" examined the gene-environment and DNAm-environment interactions of perceived racism and discrimination, parenting stress, and maternal mental health on blood pressure on African American mothers and their young children.

Dr. Taylor was elected to the National Academy of Medicine in 2019, with new members being elected based on the recognition that these scientists have made major contributions to the advancement of the medical sciences, health care and public health. Dr. Taylor was also honored with the Presidential Early Career Award for Scientists and Engineers (PECASE) by President Barack Obama in 2017, the highest honor awarded by the federal government to scientists and engineers. With her PECASE project she is examining next-generation sequencing-environment interactions on blood pressure among African Americans. Additionally, Dr. Taylor is co-PI and co-director of the administrative core of a NINR-funded P20 Exploratory Center on Precision Health in Diverse Populations. Her long-term goals are to develop nursing interventions to reduce and prevent omic-environment risks associated with health disparities in diverse populations across the lifespan.

Thursday, February 25

Paule V. Joseph, PhD, RN, MS, FNP-BC, CTN-B

Dr. Paule V. Joseph is a Lasker Clinical Research Scholar and National Institutes of Health (NIH) Distinguished Scholar. She is a Tenure Track Clinical Investigator and Chief of the Sensory Science and Metabolism Unit (SenSMet) at the National Institute of Nursing Research (NINR)

with a dual appointment at the National Institute on Alcohol Abuse and Alcoholism (NIAAA). Dr. Joseph received an AAS in Nursing at Hostos Community College, a BSN from the College of New Rochelle, and a Master of Science with a specialty as a Family Nurse Practitioner from Pace University. She completed her PhD with a focus in Genomics and Nursing from the University of Pennsylvania and conducted her PhD work at the Monell Chemical Senses Center. She then completed a Workforce Diversity Clinical and Translational Postdoctoral Fellowship at the NINR. Combined Dr. Joseph has over 15 years of clinical, research, and academic experience.

Dr. Joseph has received several awards, including the highly competitive Johnson & Johnson- American Association of Colleges of Nursing's Minority Nurse Faculty Scholarship and the Rockefeller University Heilbrunn Nurse Scholar Award. She is a fellow of the New York Academy of Medicine and an international Transcultural Fellow. Dr. Joseph's leadership comprises her multifaceted career combining research and clinical practice.

Dr. Joseph's lab studies the interplay between metabolic disorders, sensory-related pathways and health. Her lab conducts pre-clinical, clinical, and translational studies aimed at enhancing the understanding of molecular, cellular, neural, and behavioral mechanisms underlying sensory and metabolic disorders in the context of obesity and addiction. As a nurse and family nurse practitioner, Dr. Paule Joseph has worked extensively with individuals with various chronic conditions, including diabetes, obesity, alcoholism, and substance abuse.

Aside from her research at the NIH, Dr. Joseph is devoted to promoting diversity and decreasing health disparities. Her visionary leadership of national and global non-profits has focused on increasing the promotion of health within underserved populations and increasing diversity among the next generation of clinical and translational researchers. She currently serves as Vice-president of the Amazing Grace Children's Foundation based in Ghana. She also mentors and trains students and junior faculty from underrepresented backgrounds. Additionally, she serves as the Director of Mentorship for the African Research Academy for Women. Dr. Joseph's clinical experience, research interests, leadership skills, and dedication to diversity and health have distinguished her as a young nurse scientist.

SNRS 2021 Annual Conference

Important Information

MEETING DATES: February 24-25, 2021

The SNRS 35th Annual Conference will be held virtually.

General Information

CONTACT NURSING HOURS: The Southern Nursing Research Society is an approved provider of continuing nursing education by the Alabama State Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. **Contact Nursing Hours are included as part of your registration fee.**

REGISTRATION INFORMATION:

Register online at www.snrs.org

REGISTRATION FEES: Conference registration includes admittance to all sessions and exhibits, a link to all accepted abstracts and Contact Nursing Hours. All sessions will be recorded and attendees will have access to the recorded sessions for a full year after the conference.

MEMBER REGISTRATION: You must be an SNRS member in good standing at the time you register to take advantage of the discounted member fees. Members of other regional nursing research societies (MNRS, ENRS, and WIN) may register at the SNRS member rate by providing their society affiliation and associated member number.

STUDENT NON-MEMBER REGISTRATION:

If you are a part-time or full-time undergraduate or graduate nursing student and you are not presenting at the conference, you can register for the conference at the non-member student discounted fee. Documented proof of student status (e.g., faculty letter and course registration receipt) is required with your conference registration.

JOIN AND REGISTER: For \$180, you can become a regular or associate member of SNRS and be eligible to register for the conference at the reduced regular member rate. For \$115, you can become a student or retired member and be able to register for the conference at the student or retired member rate. Just join online prior to registering.

CONFERENCE REGISTRATION DEADLINES: The early-bird registration deadline is midnight (MST) on **January 22, 2021**. We strongly urge you to register by this date to take advantage of the early-bird registration discount. Regular Full Conference registration dates are **January 23-February 23, 2021**.

REFUND/CANCELLATION POLICY: Substitution is encouraged if unable to attend the conference. Cancellations will not be honored for the 2021 virtual meeting as all attendees will have access to the recorded sessions for up to a year after the live conference.

PROGRAM CHANGES AND CANCELLATIONS: SNRS reserves the right to substitute speakers or to cancel or reschedule sessions due to any unforeseen circumstances.

SNRS Recruitment Expo:

Visit with colleagues and meet with representatives to learn about job opportunities, new products, and educational programs related to nursing research. Make sure to have an updated CV available to take advantage of any opportunities!

WEDNESDAY, FEBRUARY 24, 2021

2:00-2:30 pm Exhibits Open/Break

THURSDAY, FEBRUARY 25, 2021

1:50-2:20 pm Exhibits Open/Break

For information on becoming an exhibitor or a conference sponsor, please contact Jennifer Lanphere, SNRS Associate Account Executive at jlanphere@kellencompany.com or call 1-720-881-6119.

The Southern Nursing Research Society (SNRS) was founded in 1986 when sixty nurses met in Atlanta and debated the possibility of an organization for nursing researchers in the southern region. In 1987, SNRS was declared an independent organization. There are 14 states in the Society region: Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, North Carolina, South Carolina, Tennessee, Texas, Virginia, and West Virginia.

The mission of the Society is Advancing Nursing Research through:

- Dissemination and utilization of research findings
- Career development of nurses and nursing students as researchers
- Enhancing communication among members
- Promotion of the image of nursing as a scientific discipline
